

A close-up, artistic photograph of a dog's face, likely a Golden Retriever, wearing dark sunglasses. The dog's mouth is slightly open, showing its teeth and tongue. The background is a soft, out-of-focus green, suggesting an outdoor setting. The overall mood is relaxed and stylish.

The SpotOn System.

SPOT ON
VIRTUAL SMART FENCE

The World Is Your Backyard

Thank you for taking the time to learn about SpotOn, the innovative containment solution that lets you create virtual fences for your dog—at home and on the go.

Read on to find out about the key features of the SpotOn System—and how they help bring dogs and owners closer together.

No buried wires. No base stations. No limits.

The SpotOn System needs no stationary hardware. Instead, it uses global navigation satellite systems—such as GPS, Galileo, and GLONASS—to create virtual fences.

With SpotOn, dog owners simply walk a perimeter to create a fence—of almost any shape and size.

Smartphone management.

The SpotOn Collar pairs with the SpotOn App to give users control of up to 10 virtual fences.

Through the App, users can activate, manage, and share each of their virtual fences; see them overlaid on Google Maps; and discover their dog's current location.

Containment. Wherever You Are.

The SpotOn System provides portability and connectivity—so owners and dogs can have safe play areas at home, at a friend's, or wherever they decide to roam.

With SpotOn, dog owners bring the security of their backyards with them—everywhere.

Patented technology. Uncommon design.

The SpotOn Collar's patented antenna design puts it in constant communication with the satellites that create users' virtual fences.

The Collar's durable construction—paired with its proprietary algorithm—gives dog owners the peace of mind and freedom to take their dogs wherever they go.

Handles a dog's wildest adventures.

With SpotOn, dogs can splash through puddles, jump in the mud, and even take a quick swim.

On any terrain. Under any weather conditions. All year long. With SpotOn, the world is your backyard.
